

NOTICE TO MEMBERS

Members, Absent Members and Guests of Members Returning to Hong Kong

Due to the current and ongoing Global COVID-19 outbreak the Club has decided that those Members/Absent Members and/or Guests of Members, who have recently returned from abroad, from any of the countries that the Hong Kong Government have deemed to be an affected country, should not come to the Club for a period of not less than 14 days from the date of arrival in Hong Kong. The list of the affected countries can be viewed at [Government webpage](#). This also applies to the family of a Member even if the family members have not been abroad. The suspension from the use of Club facilities will apply from Monday 16th March 2020 onwards.

You are reminded that we all have a Duty of Care to others so please do the responsible thing and do not come to the Club for 14 days after your arrival in Hong Kong. In the best interests of all Members and Staff we ask that you fully comply with the restrictions set out above. Further, for those Members etc who have not been abroad in the last 14 days if you do not feel well and show signs of fever or a respiratory illness, we would ask that you seek medical advice before coming to the Club.

Thank you in advance for your full co-operation and understanding in this matter.
