

NOTICE TO MEMBERS

COVID-19 Restricted Access to the Club

Since writing to Members on Monday 16th March 2020 the COVID-19 situation has worsened globally. We are aware that many people are now travelling back to Hong Kong (or already have) because of travel restrictions imposed by Governments from around the world.

For the purposes of clarification, the Club's position as regards access to the Club retroactive to Monday 16th March 2020 is that any Member or guest who has returned to Hong Kong or, **has been in close contact with someone who has returned to Hong Kong, must not come to the Club for a period of 14 days after his/her arrival.**

Close contact includes Members whose children have or are returning to Hong Kong and are living at home. As an example, if your child returns today, the 18th March 2020, the parent Member and the rest of the family should not come to the Club until at least the 31st March 2020.

We thank you in advance for your full co-operation and understanding in these extraordinary times.

Management
