

CHAIRMAN'S MESSAGE

COVID-19 Preventative Measures

Dear Member,

Unfortunately, we have just been notified that three Staff members (who are all double vaccinated) have tested positive for COVID-19. A decision has therefore been made in the interests of the health and safety of all, to close the Club with immediate effect. All Staff members will now have to undergo a Government COVID test, and the Club will only reopen when we have received all Staff test results. In this respect, we expect this to be for a period of at least 72 hours. Deep cleaning and sanitising of the entire Club Premises will be undertaken during the period of closure. We will inform members as soon as we can as regards when we are in a position to reopen the Club facilities.

Michael J Wood

Chairman

Hong Kong Football Club
