

NOTICE TO MEMBERS

Closure of Sports and Recreational Facilities

Dear Member,

As you are aware, the situation with the COVID-19 outbreak is developing at a rapid pace and we are closely monitoring this.

The Home Affairs Bureau (HAB) which has responsibility for clubs operating under a Private Recreational Lease (PRL) has now advised us that all PRL lessees are required to close all sports and recreational facilities as soon as practicable until further notice.

In compliance with this request, the Club will suspend operations of all sports and recreational facilities (including all Changing Room facilities) with effect from Thursday 26th March when we reopen after the closure to undertake deep cleaning.

However, the General Committee has decided that for the time being, and pending any further announcements from the Government, when the Club reopens on Thursday 26th March the following F&B outlets will continue to operate:

Infield

Sportsman's Bar and outside patio area

Ground Floor

Kiosk and Library

First Floor

Captain's Bar

Second Floor

Coffee Shop/patio area, Restaurant, Lounge and Chairman's Bar

Presently there is no requirement to stop serving alcohol, but we are mindful that there may be an announcement on this matter soon.

We trust that you will understand the need for these measures, and of course we will update members as and when further information becomes available.

Michael J Wood
Chairman
Hong Kong Football Club
